

CURRENT SIDEWALK CONSTRUCTION PRIORITIZATION

Sidewalk rankings are updated as new requests are received and are subject to change. Sidewalks chosen to be constructed in the upcoming fiscal year are selected by rank from the prioritized list as of March 1. Any new requests received after March 1 are entered and analyzed for consideration in subsequent years. The number of projects chosen for construction in a given year is dependent upon available funding. While both sides of the street are evaluated, sidewalks are only constructed on one side. The street "SIDE" shown below indicates the side of street if travel begins at the "FROM" street and proceeds towards the "TO" street.
